

THE RENEWED
STRENGTH PROJECT

EMPOWERING RENEWED STRENGTH

A Pathway Back to Life

Helping individuals affected by cancer restore
strength, confidence, and the freedom to fully
participate in life again.

THE RENEWED STRENGTH PROJECT

EVIDENCE-BASED EXERCISE ONCOLOGY

NORTHERN COLORADO

*Because surviving cancer should be
the beginning of living again.*

 therenewedstrengthproject.org

Why We Exist

Cancer changes far more than the body.

It changes confidence.

Independence.

Identity.

It changes the simple moments people once took for granted.

Walking
a trail.

Playing with
grandchildren.

Traveling.

Returning
to work.

Feeling
capable
again.

Too often, survivors are told treatment is over...

Yet no one helps them rebuild the strength needed to fully return to life.

The Renewed Strength Project exists to change that.

“*Recovery isn't measured by the end of treatment. Recovery is measured by the return of life.*”

Our mission is simple:

To remove financial barriers to evidence-based exercise programming so individuals affected by cancer can restore strength, confidence, and the freedom to fully participate in life again.

Strength is More Than Muscle.

It's independence. It's confidence.

It's the ability to live life on your own terms again.

Research shows that appropriately prescribed exercise can reduce fatigue, improve physical function, support mental health, and enhance quality of life for individuals affected by cancer.

We believe everyone deserves that opportunity.

Rebuild
Strength

Restore
Confidence

Reduce
Fatigue

Improve
Quality of Life

Return to the
Life You Love

From the first step in the gym
to the highest mountain summit,
strength creates possibilities.

Movement is medicine.

Access is hope.

“ When we strengthen the body,
we restore the spirit.
When we restore the spirit,
life opens up again. **”**

Strength is
built one rep,
one choice, and
one day at a time.

WE WALK BESIDE OUR PARTICIPANTS

with personalized, evidence-based exercise
programming designed to meet them where
they are—and help them get where they
want to go.

**Because recovery isn't just about getting
back to normal. It's about becoming you again.**

THE RENEWED STRENGTH PROJECT

A PATHWAY BACK TO LIFE

3

Evidence. Purpose. Possibility.

We combine science with personalized coaching to help individuals affected by cancer rebuild strength, function, and confidence.

Decades of research confirm what we see every day: appropriately prescribed exercise is safe and effective during and after treatment.

It can reduce fatigue, improve physical function, enhance mental health, and lower the risk of recurrence and other chronic disease.

But research alone isn't enough.

Access is what makes recovery possible.

Progress

Real-Life
Goals

“ Exercise is not a luxury during cancer. It is a proven intervention that changes outcomes and changes lives. **”**

– American College of Sports Medicine
2019 Cancer Exercise Roundtable

*Every step forward
is a step toward
the life you love.*

THE PATH FORWARD

Whether your goal is to hike again, keep up with grandchildren, return to work, or simply feel like yourself—movement makes it more possible.

We are here to walk that path with you.

THE RENEWED STRENGTH PROJECT

A PATHWAY BACK TO LIFE

4

This Is Where Life Begins Again.

**No two cancer journeys are the same.
That's why every TRSP program begins by listening.**

We meet you where you are today and help you move toward the life you want to live tomorrow.

YOUR JOURNEY WITH TRSP

- 1**  **We Listen**
Every story begins with understanding you.
- 2**  **We Learn**
We understand your strengths, challenges, and goals.
- 3**  **We Build**
Together we create a personalized plan that fits your needs and life.
- 4**  **We Move**
Strength returns one session at a time with expert coaching and support.
- 5**  **We Grow**
We track progress, celebrate victories, and adjust when needed.
- 6**  **You Live Again**
Return to the moments and the people that matter most.

“ *We don't train people to exercise.
We help people return to the lives
they've been fighting for.* **”**

The Path Forward.

Every participant's journey is unique, but every journey begins with understanding the person—not just the diagnosis.

“

*Our goal is simple:
help every participant
regain strength, confidence,
and the ability to live
the life they love.*

1

CONVERSATION

We start by listening.
We learn about you, your story, your treatment, and the life you want to return to.

2

ASSESSMENT

We evaluate movement, strength, balance, fatigue, and overall function to build a complete picture.

3

PERSONALIZED PLAN

Your program is customized using evidence-based guidelines, clinical expertise, and the goals that matter most to you.

4

ONE-ON-ONE COACHING

You'll work with an exercise professional who guides, supports, and empowers you every step of the way.

5

MEASURE PROGRESS

We track what matters—function, confidence, strength, and quality of life—so we can adjust and celebrate your wins.

6

LIVING AGAIN

Whether that's hiking a favorite trail, traveling, playing with grandchildren, returning to work, or simply feeling like yourself again—that's our why.

WE LISTEN

Before we prescribe exercise, we take time to understand who you are, not just your diagnosis.

WE PERSONALIZE

Every program is built around you—your body, your treatment, your goals, your life.

WE MEASURE WHAT MATTERS

Success isn't defined by a number on a barbell. It's measured by the improvements that change your day-to-day life.

OUR COMMITMENT

We don't promise miracles.
We promise compassionate coaching, individualized programming, and a commitment to walking beside every participant throughout their recovery.

Built on Experience. Driven by Purpose.

We didn't discover exercise oncology in a textbook.
**We discovered its power while fighting to
reclaim life after cancer.**

Our family has lived the uncertainty, the fear, and
the long road back after cancer.

Walking beside hundreds of others has only
strengthened what we already knew:

Recovery deserves more than hope alone.

**Every decision we make begins with
one question:**

***“Will this help someone
get their life back?”***

**If the answer is yes,
we keep moving.**

SCIENCE

Current exercise oncology
research guides our
decisions and defines
our standards.

COMPASSION

Every participant
deserves to be treated
with dignity, respect,
and encouragement.

COMMUNITY

Recovery is stronger
when we support each
other. No one should
walk this path alone.

**“Exercise isn't
our mission.
Restoring
lives is.**

”

WHAT MAKES TRSP DIFFERENT

**INDIVIDUALIZED
PROGRAMMING**

**EVIDENCE-INFORMED
PRACTICE**

**COMMUNITY
PARTNERSHIPS**

**LOCAL
DELIVERY**

**NO FINANCIAL
BARRIERS**

**MEASURABLE
OUTCOMES**

Everything we build begins with one belief: *everyone deserves the opportunity* to reclaim the life cancer tried to take away.

OUR APPROACH

Recovery Deserves Better.

Most cancer survivors are never referred to structured exercise.

TRSP closes that gap with a cancer-informed approach that is individualized, safe, and designed to restore the life you want back.

Your life is worth rebuilding.

“

Recovery isn't about returning to who you were.
It's about discovering who you're becoming.

”

OUR APPROACH IS BUILT ON THREE PRINCIPLES

CANCER-INFORMED

Exercise prescribed with an understanding of treatment effects, fatigue, surgery, and long-term recovery.

INDIVIDUALIZED

Every program begins with the person—not a template. We design around your body, your life, and your goals.

PURPOSE-DRIVEN

Every exercise connects to something meaningful outside the gym. Strength for life, not just fitness.

EVERY PARTICIPANT RECEIVES

INITIAL ASSESSMENT

Understanding your history, treatment, and goals.

PERSONALIZED EXERCISE PLAN

Designed for your body, your stage, your life.

ONE-ON-ONE COACHING

Expert guidance every step of the way.

ONGOING PROGRESS TRACKING

Adjusting as you get stronger and more confident

RESTORATION GOALS

Focused on the life you want to live

COMMUNITY SUPPORT

Connecting with others who truly understand

“

We don't train people to survive cancer.
We help people live again.

”

Progress You Can Feel.

*Because recovery is
more than a number.*

At TRSP, success isn't measured by
heavier weights or faster times.

**Success is measured by restoring
the freedom to live the life that
matters most.**

Every participant begins by defining
what recovery looks like for them.
Then we build the plan together.

We don't chase personal records.
We restore personal possibilities.

WE MEASURE WHAT MATTERS

RETURN TO HIKING

Regain the confidence
to explore again.

FAMILY ACTIVITIES

Be present for the
people who
matter most.

RETURNING TO WORK

Rebuild energy,
focus, and the ability
to contribute.

STRENGTH & FUNCTION

Improve the capacity
to move well and
live well.

CONFIDENCE

Rebuild self-trust
and believe in
what's possible.

QUALITY OF LIFE

More good days.
More hope.
More you.

EVERY PARTICIPANT RECEIVES

Baseline assessment to understand your starting point

Personalized restoration goals that drive your plan

Ongoing progress reviews to adjust and support

End-of-program reassessment to measure growth

“ The goal isn't to
create better athletes.
The goal is to restore
the freedom to
live fully. ”

We believe every participant *deserves to know they're making progress.*
That's why we set meaningful goals, track functional outcomes, and celebrate the milestones that matter most.

Back to Life

Because surviving cancer should never be the finish line.

This is why The Renewed Strength Project exists. Not simply to help someone become stronger. But to help them return to the people they love, the places they've missed, and the life that cancer tried to interrupt.

Every journey looks different. For some, it's carrying groceries without fatigue. For others, it's walking a favorite trail. For many, it's simply having the confidence to say, "I feel like myself again."

Recovery isn't complete
when treatment ends.
Recovery continues when
life begins again.

Every donation. Every partnership. Every referral. Every conversation. They all help another individual affected by cancer regain strength, confidence, and the freedom to fully participate in life again.

**Together, we can help more people
reclaim the life waiting beyond treatment.**

**Ready to help someone
find their way back?**
